SAMPLE

# US Frozen Mango

## Prospect Intelligence

### Sales Preview

## Trial price: THB 1,490

The full product contains a 12-page report and a filterable Excel workbook covering 25 selected prospects across five product segments. This preview shows three illustrative profiles only.

Know the format before you shortlist

Separate IQF/cuts, pulp/puree, unspecified formats and mango-containing blends. Review evidence strength and public contact route without treating every trade record as verified US import status.

Evidence snapshot: 10 October 2026. Current purchasing demand and procurement authority are unverified. This is prospect intelligence, not a confirmed-buyer list.

# What the product helps you do

### Focus your research

Filter companies by product segment and evidence grade. Use company-level cargo wording, observed dates and Bill references to target further qualification. Missing contact information and source limitations remain visible.

### Understand the public route

Distinguish general business, sales, franchise, customer-service and group contact routes. A public contact is not automatically a procurement contact. The workbook provides official and evidence-source hyperlinks where supported.

### Methodology overview

The baseline covers observed trade records within 2025-10 October 2026 using a US-destination search, supplemented by official business/identity pages and exposed cargo records. Source-displayed dates are not automatically actual US arrivals. The scope is not an exhaustive latest-shipment or annual-volume audit.

### Evidence grades

The full product contains 1 Grade A prospect and 24 Grade B prospects. Grade A is manifest-level evidence, not certified customs clearance. Grade B is relevant trade evidence for a US business/display, not verified US import status. Only one selected prospect meets the stricter Grade A criteria.

### Full-product segment mix

13 solid-fruit prospects; 2 both solid fruit and pulp; 5 pulp/puree; 4 unspecified commercial frozen-mango formats; 1 mango-containing blend-only prospect. These are company segments, not shipment counts.

### Use the findings with care

Product wording, affiliate separation, conflicting values and missing information remain disclosed. Supplier access, current specifications, current buying demand and procurement authority require independent qualification.

The complete prospect database is intentionally omitted from this SAMPLE.

# Three illustrative company profiles

## 13 ALM Organics Inc / Grade A

**Business:** US, Nevada; commercial frozen-fruit importing channel; D; US/Peru corporate affiliation not established

**Observed product:** IQF organic mango chunks; actual arrival 2026-07-02; separate later E26 source date 2026-09-25 **Cargo context:** Plain mango; no blend inferred for selected July record.

**Reference:** MEDURU535460, manifest 000001; inspected source; E26 MEDURU645830 kept separate **Date basis:** Actual US arrival (July manifest).

**Commercial relevance:** Grade A, manifest level: named US consignee, Seattle arrival and Regular Bill; external buying demand unverified

**Contact:** Not verified - matched official public business contact missing **Route:** Missing / not verified.

**Limits:** Manifest-level evidence only, not certified customs clearance or importer-of-record status. In-bond field blank. US/Peru corporate affiliation and matched official US contact not established. July and September Bills kept separate. Current demand and procurement authority unverified.

**Sources:** inspected source / Cargo lookup.

## 03 Noon International LLC / Grade B

**Business:** US, Washington; global frozen-food trader; D

**Observed product:** Frozen mango chunks; 2026-09-24 **Cargo context:** Plain.

**Reference:** COSU6509935540 **Date basis:** Source-displayed date; actual arrival not reconciled.

**Commercial relevance:** Frozen ingredients/sourcing role fits exporter approach

**Contact:** info@noon-intl.com; +1 206-283-8400 **Route:** General business.

**Limits:** US legal identity supported by USDA certificate. Certifications are not shipment dates or current purchasing commitments. Selected record type/US arrival treatment not fully reconciled. Current demand and procurement authority unverified.

**Sources:** Official site/contact / Cargo lookup.

## 16 Mama Lycha Foods LLC / Grade B

**Business:** US, Texas; Latin-American food importer/distributor; D

**Observed product:** 480 boxes frozen mango pulp; 2026-10-06 **Cargo context:** Multi-SKU: separate soursop/mango/passionfruit.

**Reference:** SMLU9230591A **Date basis:** Source-displayed date; actual arrival not reconciled.

**Commercial relevance:** Existing branded mango-pulp channel; suitable format is pulp, not automatically IQF chunks

**Contact:** Contact form; +1 713-263-0020 **Route:** General business form/phone.

**Limits:** Pulp qualification does not establish IQF chunk purchasing. Multiple fruit pulps are separate products. Selected record type/US arrival treatment not fully reconciled. Current demand and procurement authority unverified.

**Sources:** Official contact / Official catalog / Cargo lookup.
